STATUTORY AUDIT OBSERVATIONS & TECHNICAL FINDINGS

- Verified HEMM braking systems on Caterpillar 777D Dumpers #12, #15, and #18.
- Haul road gradients tested and maintained at 1:16 with full statutory safety berms.
- Active continuous water sprinkling suppression operating on Main Haul Road 3.
- Fire suppression foam systems certified and inspected at Fuel Dispensing Station 2.
- No critical statutory violations identified during scheduled quarterly field audit.

MANDATED STATUTORY ACTIONS & REMEDIATION PLAN

- Maintain bi-weekly automated water tanker sprinkling logs on quarry benches.
- Ensure lightning arrestor earthing resistance audit is submitted before 2026-10-15.
- Continue standard pre-shift contractor safety briefings.
